1. I feel confident about my recordings because I feel like I did my best I could on them .
2. I'm very comfortable with adjusting tone and reflection with my speech this isn't the first time for me doing it due to experience from the past.
3. The excerpt I used was from the NFL draft for 2017 from a reporter. The article was written by Ken Belson. The title is In The N.F.L Draft's first round, Offense is back in favor.
