

be running out by buying groceries, clothing, shelter, everything someone need to survive. "The immigrants are living a difficult life. They are risking their lives to get the money they need" (Annonyuose). They are living because of farms. Their *jobs* are to work in picking up tomatoes from fields that they own. Yes, we dont have fields here in Oakland but we do have immigrants that work in the fields. After that, the immigrants sell them to a company and get money. But that's a hard way to earn money. They are also risking themselves to having skin cancer because of the sun. They could wear sun protection but it won't really help them since they million under the sun for hours from sunrise until sunset.

Immigrants are not being accepted in jobs because they don't have an ID that identifies them. Oakland should do something and make things change. For example the green-card. There's over 11 million of immigrants waiting to be made legal. With the green-card (people who came to the United States and has been with someone who has been in the United States legally) are allowed to have a job and do credits to be able to buy house, get cars out a dealer, get credit cards, or open a bank account. The problem is that they are taking long to give the immigrants their green-cards. Meanwhile, they can't do anything other than just waiting. "I know many immigrants who are waiting for the green-card and they scared they ain't going to get it back"(Hernandez). It normally take about two-three weeks to come back in and if it's not back within 2-3 weeks its best to call a special number.

In conclusion, immigrant are struggling to have a job. Oakland should have a way to help immigrants. Just enough to get money for food. Immigrants are struggling on getting money for their needs. We all have the same rights to try to live a life without having money because the right that one person has the other one should have as well. We should be equal in every thing.

Annotated Bibliography

Anonymous, Rosa. "If i was Immigrant ." 7 Jan. 2018.

This person who was born in Mexico came to the United States and made herself a citizen, stated that if she was in immigrant she would've struggle getting money. When she came to the US she was obligated to get a job because of some personal reason. Without that job she points out she wouldn't know where she would be standing.

Hernandez, Jessica. "Immigration ." 7 Jan. 2017.

Hernandez talked to me about how she struggle getting her green-card. She also stated how long it

took for her to wait for the card so that she could have a job because she needed the money for a personal and she had to deal with and the money was needed.

Garcia, Karla. "Point of View." 15 Jan. 2017.

Karla Garcia on her point of view based on immigration. I interviewed her because she is a teacher in Oakland but didn't want people to know the name of the school she works at. She has seen her students
