

## Thomas James' Book Cover Redesign

I've picked the images in the book cover because they represented what is going on in the quotes that I had pulled out of the story.

I decided to choose this type of background because it shows the darkness of all annotations and what is the emotion going through with them.

The importance of the quotes I had chose is that it's giving the bad and emotional breakthroughs that Victor Rios had experienced growing up in life. I want the readers to understand how Victor Rios had a dark and very emotional growing path to try to get out of bad situations.
