

NYC ... my home

Going out in the city is important to me,
Hearing the traffic as the cars rush by you is thrilling,
The horn as they honk at you is just ... amazing
The nice good fresh air of hot dogs and nuts 4 nuts by Times
Square is nostalgic,
The amazing views from high buildings is what makes the city
unique
The lights coming from the buildings at night is beautiful
These lights are our stars since we don't have any
And honestly being involved with the atmosphere of downtown is
matchless
Its incomparable to any other city
New York City is my home
